While it does its job well, I do not think it really helps that much! The options of what you can pull from the store are so limited you may as well make your own. The only thing you can include in your grocery list is the generic name of the product. While this may work for you, it may not for me. I tried printing this out for every single category of food in my grocery store and it was thousands of pages long! What a failure! I would rate this as 3/5 in my opinion." "For a bargain and robust way to organize your list, this program is great for my everyday needs! I would rate this as 5/5." "This is a great program for people who like to keep on top of their grocery list and keep a clean storeroom. If you have a heavy food habit like I do, this program would be a life saver and best shopping tool. I would rate this as 5/5." "Aisle by Aisle
