movies to any size and quality
you need Requirements: [?]

DVD-ROM Drive, 500 Mhz

CPU, 64M RAM Limitations:

[?] 30 days or 3 uses Fractal

Audio Processor (FAP)

Description: FAP is an open
source encoder for WAV and
MP3 audio files, based on the
FUJITSU® High Definition

Audio CODEC. It does not
produce compressed audio,

but merely reads an audio

track and passes it through a

basic LAME MP3 encoder to

create a WAV file. Since FAP

generates WAV and MP3

audio files in portable formats, the original audio track is not altered. The Fractal Audio Processor can be used to encode WAV and MP3 audio,

WMA/WAV/MP3/MPEG-1 audio and OGG Vorbis/OGG FLAC audio formats. Abts Video Pro 8.0.10.5.7

Description: Abts Video Pro is an excellent and easy-to-use application for video editing.

Abts Video Pro can edit video in a number of different formats such as AVI, MP4, MP3, WAV, H.264, FLAC,

MP4, WAV, SWF and many other format files. It can also cut video into several clips and convert them in any format that you need. Abts Video Pro 8.0.10.5.7 features a professional user interface with a great set of tools and functions that help you create and edit videos. Some of the main features are:

- ❑ Multi-track video editing: You can select a track and cut, paste, rotate, crop, flip, and merge it with any other clip.
- ❑ Video to DVD: You can convert your video to any format such as

DVD, MP4, MP3, AVI,
MPEG, WMV, DivX, H.264
and FLV.
