I believe in the freedom of speech; I believe in the power of music; I believe in the magic of nature. I believe that we have a shared responsibility for the earth; I believe that with the hard work, creativity, humility and innovation of us all, we can be the best we can be. I believe that we have to learn to celebrate our diversity, to use our differences to move us forward. I believe that the way we choose to live together, the way we share our work, our leisure, and our culture, shapes the kind of world we live in. I believe that we are all in this together, and we are all better when we work together. And I believe that the world is full of incredible people who are much smarter than I am, and have far more time and experience to spend than I do. So, I'm always looking for smart and capable people to bring along, people to help me make music, and to help me make things better. I'm really looking forward to it.
