RPG SYSTEM World Economy SEQUENCE OF MATCH In the major cities, the Lords compete for the title of “Elden Lord” and engage in an endless struggle for fame and fortune. THE STORY OF THE WORLD Dwarf, Elf, Human, and you The land of Elden has been divided into eight Lords’ lands. In ancient times, the land of the Dwarves was invaded by our ancestors, and the remnant of the Dwarves was scattered throughout the Land. With this dispersed population, the Elves and Humans occupied the land of the Dwarves, but they were unable to form a unified front and protect themselves. Then the Great War began. The Elves were viciously attacked, and most of them were exterminated. The remaining Elves fled and retreated to the Elven lands and dwelled in hiding until the present day. After the Great War, the Elves and Humans retreated to the Human lands and began to dwell in

hiding. Subsequently, they intermarried, and the Elf and Human bloodlines were merged. Although they lived in silence, the Elves' feelings of vengeance towards the Dwarves for their atrocious genocide were gradually lost. Gradually, the Elves and Humans thrived together as one people, and the Land of Elden was established. Thereafter, our ancestors were part of the seven nations called Elden. Many years have passed After many years passed, in a place called the Lands Between, a mysterious deity appeared and turned the four races of Elden into a single man. The first of the seven nations is the Dwarves. The second is the Elves. The third is the Humans. And the fourth is the Gnomes. And so on, to the last, the Gnomes. The gnomes have been cosseted in a daily life of leisure, and they want to live in peace. However, the dwarven king and the elven king are ambitious and crave power. Therefore, they desire the title of Elden Lord. Introduction In Elden, two races exist: the Elves and the Dwarves. In the Lands Between, you can even experience a third race. against the decision in the first instance. In justifying its decision, the court pointed out that the question is whether law that is declared unconstitutional should still be regarded as a valid law. "The essence of the question can also be seen by looking at the constitutional protection against illegalities," says Rolf Hornung from the Max Planck Institute of Comparative Public Law and International Law. "The concept of illegalities covers irregularities that are unlawful in their substance and form, for example a law that has not been passed by parliament or that does not meet valid legal stipulations."
