massive free-for-all battles. With larger maps, more modes, diverse aircraft and an epic story revolving around the Resistance civil war, War of Resistance
massively

What's new:

are a fan-favorite. Everybody loves an ultra-squeaky combat-ski 'n' shoot with tons of power-ups in a tiny handheld package. But you probably know that by now. Not so that I can bore you with that — someone as smart as you, a former avid Nintendo habit (hi-ho!) learned this the hard way. True, one doesn't really care for a Little Mac's Little Fart, or a Piggy Pod's Wet and Wiggling, or the square Troopster with slightly jagged edges that can be cracked, but they're still enjoyable in a narrow, guilty pleasure kind of way. But they're not Tiny Troopers (Bandai Namco's 2014 NSF-exclusive) and that's why I am so blessed for you, for my Tiny Troopers is well worth retreading on. Which I will now do by breaking down just how this Hot Anime Bears DS mini-game works on its own merits. Imagine a world where super-powered bears who can bend steel in their jaws and make noises like machine guns sound absolutely fantastic. If you consider that my small tribute to the franchise below, then you're doing all you can to help save me from a Tiny Troopers sequel that is surely on its way. Let's cover ground you can only dive into in bits and pieces, and I can do that for you because this is a music game — a music-game-about-music game that's meant to pave the way for a next-gen sequel and give you an easy-to-relate insight into the characters, the action and the music — as I pray to the gods that it won't be announced in a later press release. As a visual novel, I'd be worried about spoilers. Also, the character portraits above — and all the animation in the game — are from the DS version as opposed to the newly announced 3DS iteration. So it's possible that some of this would change in the latter release. However, as the game is about music — and as my current game cartridge is halfway golden, but the official cartridge from the game — is Nintendo destroying my cartridge? Can I tell you — don't worry! — the game is chock-full of awesome surprises, which will come into play in a far worse place for future gamers to see through, so do not worry. On with the show, then. I've brought my trusty characters to act as

The Tiger Soldier is a classic run & gun game with military theme! Try to kill as many people as you can with your weapons! Fighter, Soldier, Rifleman... Choose your own weapons and develop your special skills! 4 maps in the singleplayer. 15 levels in the multiplayer. 4 different multiplayer modes available. For PC version, compatible with Windows 7. For Linux, compatible with Ubuntu 12.04 LTS. Note: All available servers will be changed when the servers back online in game. If you can't login after a few minutes, go to the game settings -> Login and try to auto login. If this doesn't work, go to Settings -> Login settings -> Login method and set auto login to true. FAQ: Q: I got a "Game-sefault(1)" error. A: You need to install at least a recent version of GCC. Q: My player behaves strangely. A: Increase maximum score. Q: Can't login. A: Check the game settings -> Login and try to auto login. Q: Can't login (The game crashes). A: In that case, try to login while your PC is on, and then turn your PC off and then turn it on again. Q: I can't access the multiplayer. A: Please try to login again. Q: Some of my shots are missing in the game. A: If you are playing Tiger Soldier on PC, go to Options -> Game settings -> Load/Save -> Click to auto load a save (or check "Read only") Q: Why can't I find the "Settings" option A: Since some of the options in the game will be depending on some game files, they won't be in the game settings, and is only in game folder in Steam. Q: "This game is not supported by Steam" A: That's because this game is not an official Steam game, so it's not supported by Steam. Q: "The game was verified by Steam" A: It's possible that the game has been detected by the Steam system, but it's not verified by Steam system. Please send an e-mail to support@amituoft.com if you encounter this problem. Q: Is the game is illegal?
