Now is a good time to take a look at the Photoshop interface and understand the basic organization of its workspace. This book covers Photoshop basics from the beginning through version CS4 and explains how to use and manage multiple document windows. The chapters about managing layers and using smart objects are especially helpful for beginning users. Getting Started with Photoshop In this section, I start with the basics: opening a Photoshop document and manipulating objects on it. I then explain how to work with layers and how to save a document. Opening an Image I begin with opening an image. You open an image by choosing File⇒Open in Photoshop and then clicking on the file you want to edit. Photoshop opens a new document where you can work on the image. The main types of files that you work with in Photoshop are JPEG (Joint Photographic Experts Group) images and TIFF (Tagged Image File Format) images. If you're not sure what the difference is between these two file types, flip to Book III, Chapter 3 for the lowdown on formats. Of course, Photoshop also knows how to open GIF (Graphic Interchange Format) and BMP (Bitmap) files, but those types of files are rarely used as the industry standard in the digital image world. So, I skip them in this book. Photoshop also knows how to open layers of Photoshop documents. You create layers just as you create the color channels of a photo (you create and use layers in the Layers window in the Layers panel, covered in the next section). When you start working in Photoshop, remember to save your work. Save a new version of the image at regular intervals and save a backup of your original document in case you accidentally delete something. Save a backup of your work frequently. Not only is saving your work a good idea when you're making changes to a file, it also can protect your work from accidental deletion. I recommend saving a copy about every 30 minutes. Working with the Layers Window In this section, you discover the layers window, a window where you manage the image's layers, or channels, and work on manipulating them individually. The Layers window is a collection of layers. Layers are your undo mechanism because you can always go back to a previous version of a layer. Because you can't affect all layers at once, you can selectively apply changes to specific layers by using layer masks (as I demonstrate

A 1,200 mile road trip to West Virginia has concluded the 50th National Big Ten/ACC Challenge series. The Big Ten won their third challenge on Saturday against the ACC team and remain undefeated in games that have started at midnight. The ACC came up with the most impressive effort of the night, but fell short of upsetting the winning Big Ten and holding its lead in the series. Indiana was the last team to clinch the challenge, coming back from a 25-21 deficit to defeat Michigan, 28-25, at Michigan Stadium on Saturday. The Big Ten leads the all-time series, 14-12-1. Both teams split the 2012 and 2011 series and the ACC swept the 2010 series. The Big Ten defeated the ACC 24-14 on Friday night in Columbus, Ohio, but the difference on Saturday was the Indiana defense. Led by the blitzing of safety Deontae Spencer, the Hoosiers passed the Spartans' way. The Spartans averaged just 4.4 yards per pass attempt in the contest, while Indiana allowed only 232 yards to Michigan on 42 passes. The Big Ten also had better field position, winning on their own 45, 69, and 55 yard lines while the Spartans were at Michigan's 42. Indiana also won on offense by averaging 4.2 yards per rush compared to the ACC's 4.5. Three different Indiana players caught a touchdown pass with running back Jordan Howard on a beautiful toss from quarterback Johnathan Hankins. Howard finished the night with 94 yards on seven carries. Spencer had a pick six and a tackle for loss, and safeties A.J. Mares and T.J. Green had four pass breakups each. The Big Ten's sack leader, linebacker Darryl Clark, also recorded a safety in the loss. Michigan's Denard Robinson took the blame for all of the Spartans' offensive woes on Saturday, throwing one pass and rushing for only one yard on 10 carries. The other two Wolverines running backs combined for just 64 yards on 23 attempts. Michigan safety Dymonte Thomas had the best night for his team, intercepting a Robinson pass to lead the Spartans to their first touchdown of the night in the second quarter. The Wolverines cut the lead to six at the end of the third quarter but Indiana fans would need to wait until the fourth for their team to claim the victory. Green, Hankins, and

American Century to hike dividend By MELISSA M. WYATT AP Business Writer | 12:37 p.m.May 17, 2010 AP, WASHINGTON, DC - APRIL 02: CEO and President Laurence D. Fink of American Century Investments Inc. listens to a question during the Allen & Company Sun Valley Conference on Thursday, April 2, 2010. (Photo by Jonathan Ernst for The Washington Post via Getty Images) After nearly a decade of making cautious swings, American Century Investment, a wealth-management firm controlled by a major shareholder of the fallen Lehman Brothers, is aiming to hike its dividend for the first time in more than a decade. The move is part of its broader strategy to win more clients and extend its reach across the U.S. wealth management market, which is dominated by large partnerships. The dividend plan was disclosed in its annual proxy statement. "We want to be in more markets and we want to have more financial reach," American Century's chief executive and president, Laurence D. Fink, told analysts in an April 10 telephone conference. American Century, which has more than \$300 billion in assets, has posted tepid annual growth of 2.6% over the past three years and paid dividends only once in its seven years of existence. Its share price has risen to \$77 from \$22 in the 2007 IPO, as the firm has grown into a mainstream player with over 1,000 customers. Henslin, lead underwriter "American Century's product offering is now very, very attractive in terms of what it can do," said William Henslin, a senior vice president in the leveraged finance group at JP Morgan Chase & Co. and part of the underwriting team for American Century's \$250 million share sale in August 2007. The firm's stock has risen since the initial public offering by 147%, compared with a 45% gain for the S&P 500 index over the same period. In fact, American Century is looking to raise a third round of financing from investors. The company is working with the private-equity firm AC Capital Partners, which owns a 19.5% stake in the firm. "We're looking to gain more scale and grow our market share," said Michael Cammalleri, a managing director in the private-equity group at the investment bank Allen & Co. and an investment partner in AC Capital
