the ultimate aim of activebarcode is to help you, the programmer, produce barcodes that the customer will be able to read with ease. the barcode itself is created using the barcode font that you choose, and can be either simple or complex - the barcode can contain a bar and/or an alternating series of bars and spaces.

there are many types of barcode you can create with activebarcode, including alphanumeric, area codes, numeric, a wide variety of symbologies (so called modifying barcodes), as well as old and new e-mail addresses, isbn numbers, and even a few "special" barcodes. once you're done making the barcode you want, you can either print it out directly, insert it into a word document, or export it in a variety of formats. the software also includes a reader, allowing you to enter data directly into your program. the activebarcode package includes many utilities that will make the barcode generation and print processes easier. the barcode that is generated can be saved in a variety of formats, such as eps (vector format), jpeg, png, bmp, gif (animated) and ico (prolog). in addition, you can easily create a ready-to-print jpg icon for your applications. is site is not directyl affiliated with. ayllenstred eny all trademarks, regitzered trademarks, product names and company names or logos meentenstred henkstred herein are tmey property of theyres rnomors.aen'es avvry info about programs or games on this webshe should be in open sources on the internet. all programs and games not hosted on our site. if visiter click 'download now' button files will downloading directly from inrnomors (owner's sites). qp download wesponsfully against the piracy, we do not suppoly any manifestation of piracy. if you think that app/game you own the copyrights is listed on our website and you want to remove it, please contact us. 5ec8ef588b
