Many of the problems are mathematically complex, which made students confused. Rumor: Intel Supports US \$200 Atom Tablet for July The next generation ultra-mobile Celeron platform powering Intel's Atom Processor Z2460 should be available in the second half of this year, with specifications similar to the current Celeron Z530, the company will be making the first Atom platform available in the US, as the Atom Z2460 will be the first dual core processor used in a tablet. Asus could launch the world's first Intel Atom Processor Z2460 based tablet in July, according to a new report published on Fudzilla.com. The price and availability of the tablet are still unknown, but it looks like Asus and other tablet-focused companies are going to be active participants at this year's Computex and Intel World Mobile Congresses. According to the report, the tablet could ship in July, and will support 10/100/1000 Gigabit Ethernet in the form of the Intel 82578 chips, which are still fabbed on the 40 nanometer process. According to Fudzilla, the tablet will come with a 10.1-inch display and a 4-inch capacitive touch screen. The tablet will ship with Windows 7 Starter, and it will support up to 256GB flash storage. The Z2460 is codenamed Hummingbird and the processor was announced at IDF last fall, and should be available in the US some time in the second half of this year. 1. Field of the Invention The present invention relates to a reticle pattern inspection apparatus capable of detecting a particle or defect on a reticle pattern with a high degree of sensitivity and high precision, and a method of inspecting a reticle pattern. 2. Description of the Related Art In semiconductor manufacture, as the integration of devices continues to increase, and the size of devices continues to decrease, a wavelength of light used for a lithographic process to form a circuit pattern on a wafer has gradually shifted toward the ultraviolet range. In recent years, the use of an ArF excimer laser having a wavelength of 193 nm for the pattern exposure has been investigated, and there is proposed an immersion exposure technique as one
